

### Follow the following steps:

- Create a new database in MySQL and name it ioe\_question\_bank
- Import the database in this folder.
- Make sure this folder is within “htdocs” inside xampp folder.
- Use localhost/DBMS\_frontend/ to display the webpage. (localhost/DBMS\_frontend/index.php try this if not working)

### Problem:

We are getting the same data as before even after refreshing the page.

What we want after refreshing:

Tribhuvan University  
Institute of Engineering  
Pulchowk Campus

IOE Old Question Database For Electronics and Communication Engineering

Choose exam year: --- Choose exam type: --- Choose a course: --- Search

Course Code	Course Title	Semester	Department	Teaching hours per week	Full Marks	Pass Marks	Duration
-------------	--------------	----------	------------	-------------------------	------------	------------	----------

Exam Year	Exam Type	Paper Link
-----------	-----------	------------

**Figure 1**

After searching we get Figure 2 but after we refresh, we still get Figure 2.

So, we want to get Figure 1 after refreshing.
